Here is another little helpmate if you are having trouble persuading your council to give you a rise and they are not being as helpful as they might be. It is a little table based on our regional tables that we print in May and October and which we keep updated on our computer during the rest of the year. As you can see we have the average fare for the Midlands each year since 1999 and we can then work out what the average percentage rise in the Midlands has been since 1999. We also have your figures since 1999 and we can then do a comparison. I picked Stoke on Trent because, as you can see, they had a better than the Midlands average fare in 1999 and 2000 and in 2001 but since then they can clearly be seen as having been in financial decline. Midland fares have risen 50.7% while Stoke are nearly 15% behind the rest. If you are going for a rise and you would like to see your financial percentages you know where to call – **0161 280 2800 or email: npha@btconnect.com**
